FREQUENTLY ASKED QUESTIONS

HOW OFTEN DO YOU USE FORMULA 82F?

It is recommended that patients use 82F twice daily (once in the morning and at night), though your physician may recommend alternative initial or maintenance usage after assessing your particular needs and your response to using the formula.

HOW LONG BEFORE I WILL SEE RESULTS?

Most users report a decrease in hair loss followed by modest new growth after 6-8 weeks of using 82F. While you may experience notable gains sooner, significant results typically occur after 3-6 months.

WILL I LOSE HAIR THAT I GAINED IF I STOP?

In order to maintain the gains that you achieve, it is important to remain on Formula 82F for as long as directed by your physician.

ARE THERE SIDE EFFECTS TO USING 82F?

A small percentage of people experience minor irritation or itching when first taking 82F, but this typically goes away within 2-3 weeks.

FORMULA 82F

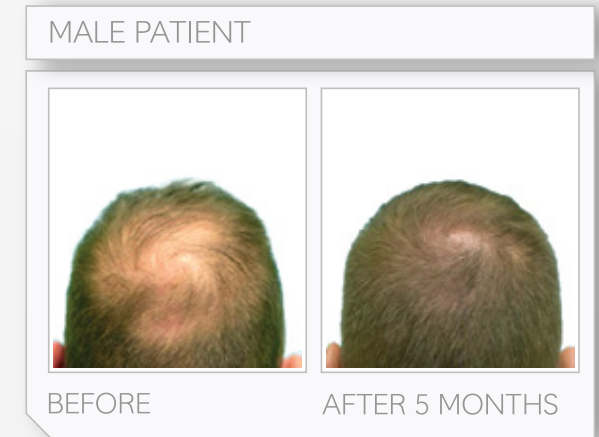

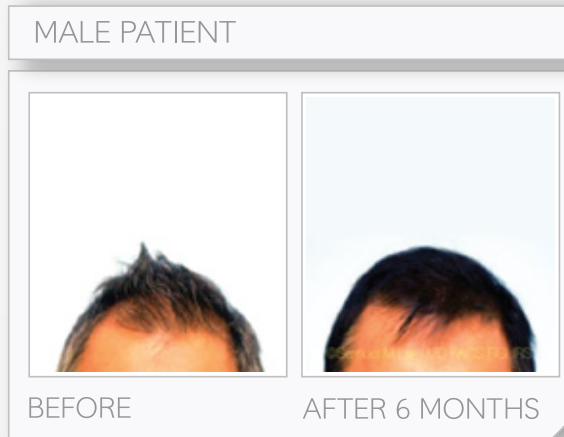

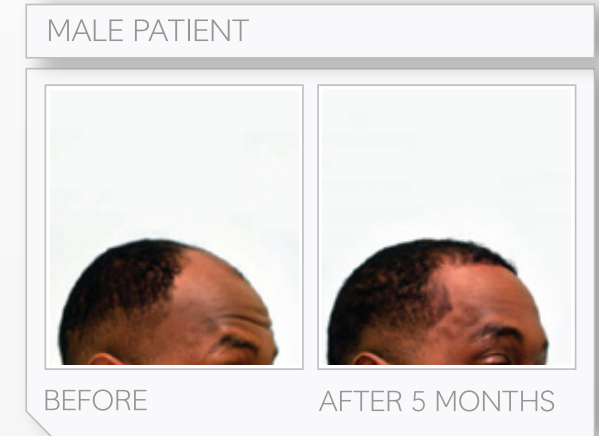

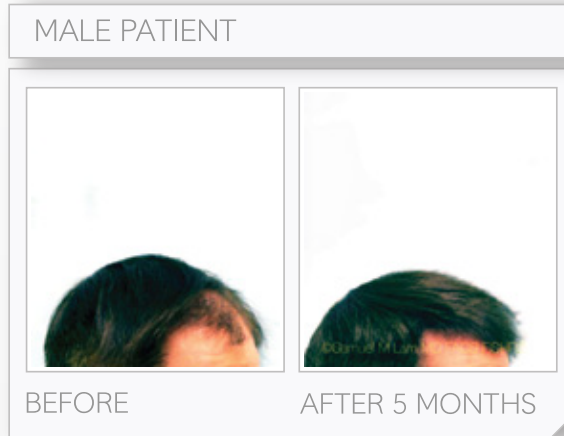

Driven by more than 25 years of research and development by leading dermatologists, biochemists, pharmacists and hair restoration experts, Formula 82F has been created to promote hair and scalp health, and to restore hair follicles to their normal function.

Formula 82F combines the proven ingredients, Minoxidil, Tretinoin, and Fluocinolone Acetonide with Finasteride, a powerful DHT inhibitor, in a proprietary nonsticky, non-irritating base. Its uniquely designed formulation is easy to apply, decreases hair loss, and stimulates hair growth.

Ask your physician if Formula 82F is the right hair loss treatment for you.
