FREQUENTLY ASKED QUESTIONS

HOW OFTEN DO YOU USE FORMULA 82M?

It is recommended that men and women use 82M twice daily (once in the morning and at night), though your physician may recommend alternative initial or maintenance usage after assessing your particular needs and your response to using the formula.

HOW LONG BEFORE I WILL SEE RESULTS?

Most users report a decrease in hair loss followed by modest new growth after 6-8 weeks of using 82M. While you may experience notable gains sooner, significant results typically occur after 3-6 months.

WILL I LOSE HAIR THAT I GAINED IF I STOP?

In order to maintain the gains that you achieve, it is important to remain on Formula 82M for as long as directed by your physician.

ARE THERE SIDE EFFECTS TO USING 82M?

A small percentage of people experience minor irritation or itching when first taking 82M, but this typically goes away within 2-3 weeks.

FORMULA 82M

Driven by more than 20 years of research and development by leading dermatologists, biochemists, pharmacists and hair restoration experts, Formula 82M is a uniquely engineered formulation created to promote scalp health and restore hair follicles to normal function.

Formula 82M combines the latest proven ingredients, such as Minoxidil, Retinoic Acid & Vitamin E, along with proprietary ingredients, in a stable, nonsticky, and non-irritating base. The uniquely designed formulation found in 82M decreases hair loss and stimulates hair growth.

Ask your physician if Formula 82M is the right hair loss treatment for you.
